FRONTEND DEVELOPER PROFILE

Frontend Developer with 4+ years of experience, dedicated to crafting visually appealing and intuitive user interfaces. Seeking to leverage my proficiency in HTML, CSS, JavaScript, and modern frameworks such as React and Angular to contribute innovative solutions to a dynamic development team.

EXPERIENCE

FRONTEND DEVELOPER

Nuvento, Kerala, India

Feb 2024-Aug 2024

- Developed responsive user interfaces for airline client (Air India) applications using React.js.
- Implemented interactive maps and geolocation features to enhance user experience and navigation within airline booking systems.
- Managed language localization using i18n frameworks to support multilingual content for global airline client applications.
- Automated unit tests for React components, Redux actions, and utility functions, achieving 95%+ code coverage and identifying critical bugs early in the development cycle.

SOFTWARE ENGINEER (FULL STACK DEVELOPER)

Lyve Global, Abudhabi, UAE

Sep 2023-Nov 2023

- Collaborated with cross-functional teams to design, develop, and deliver robust web applications using Node.js, TypeScript, and React.
- Integrated POS from customer system to our product Radyes by building and maintaining APIs and backend services using advanced concepts in Node.js, TypeScript, and Javascript.

SYSTEM ENGINEER (FULL STACK DEVELOPER)

Tata Consultancy Services, Chennai, India

Jan 2020-Apr 2023

- Specialized in developing responsive websites, ensuring optimal user experience across desktop, tablet, and mobile devices, using HTML, CSS, Angular, ReactJS, JavaScript, MaterialUI, Java, and Node.js.
- Design and develop RESTful APIs using the Node.js runtime and the Express.js framework.
- Involved in schema validation and response generation in XML using Java.
